San Antonio / Bexar County Continuum of Care

4100 E. Piedras Drive, San Antonio, Texas 78228

## INTRODUCTION

This document describes the Homeless Management System (HMIS) data quality plan for the South Alamo Regional Alliance for the Homeless (SARAH), San Antonio/Bexar County's Continuum of Care (CoC). HMIS is a locally administered electronic system that stores client-level information about persons who access homeless services in a community. This document includes a Data Quality Plan and protocols for ongoing data quality monitoring that meet requirements set forth by the Department of Housing and Urban Development (HUD). It is developed by the HMIS Administrator (Haven for Hope), the CoC in coordination with SARAH's HMIS Advisory Committee, and community service providers. This HMIS Data Quality Plan is to be updated annually, considering the latest HMIS data standards and locally developed Data Quality Thresholds.

## HMIS DATA AND TECHNICAL STANDARDS

Each CoC receiving HUD funding is required to implement and participate in HMIS to capture standardized data about all persons accessing homeless assistance in the area. The HMIS complies with HUD's official data and technical standards published on HUD's Resource Exchange.

In 2010, the U.S. Interagency Council on Homelessness (USICH) affirmed HMIS as the official method of measuring outcomes for homelessness in *Opening Doors: Federal Strategic Plan to Prevent and End Homelessness*. Various federal partners use HMIS data for contract reporting, including:

- U.S. Department of Housing and Urban Development (HUD)
- U.S. Department of Health and Human Services (HHS)
- U.S. Department of Veteran Affairs (VA)

The 2020 Data Standards were implemented in October 2019. The standards identify Universal Data Elements and Program-Specific Data Elements that are required of all homeless programs participating in the HMIS. For further reference, please review the requirements at:

<https://www.hudexchange.info/resource/3824/hmis-data-dictionary/>

4100 E. Piedras Drive, San Antonio, Texas 78228

## WHAT IS DATA QUALITY?

Data quality is the reliability and validity of client-level data collected. High quality data accurately reflects client information and helps case managers determine appropriate services. Data quality is measured by several factors such as **timeliness**, **completeness**, and **accuracy**. For System Performance Measurements, HUD's expectation is that HMIS data be complete and accurate dating back to October 1, 2012.

## WHAT IS A DATA QUALITY PLAN?

A data quality plan is a community-level document that assists the CoC in achieving statistically valid and reliable data. The plan sets expectations for both the community and the end users, as well as:

- Establishes specific data quality benchmarks for timeliness, completeness, accuracy, and consistency; Identifies the responsibilities of all parties within the CoC with respect to data quality;
- Establishes a timeframe for monitoring data quality on a regular basis.

## WHAT IS A DATA QUALITY MONITORING PLAN?

A data quality monitoring plan is a set of procedures that outlines a regular, on-going process for analyzing and reporting on the reliability and validity of the data entered into the HMIS at both the program and aggregate system levels. This plan includes roles and responsibilities for the CoC, the HMIS Administrator, and the HMIS Advisory Committee.

4100 E. Piedras Drive, San Antonio, Texas 78228

## WHAT ARE THE HMIS ORGANIZATIONAL CATEGORIES AND CRITERIA?

The HMIS organizational categories and criteria chart identifies each project and organization as an A, B, C, or D category.

	A	B	C	D
<b>Funding Source</b>	Federally Funded	Not federally funded, but data is used for federal reporting	Not federally funded and data is not used for federal reporting	Not federally funded and data is not used for federal reporting
<b>Project Participation</b>	Participates in a HUD priority project type*	Participates in a HUD priority project type	Not participating in a HUD priority project type	Not participating in a HUD priority project type
<b>Homeless Eligibility Criteria</b>	Serve at least one of HUD's Homeless Categories**	Serve at least one of HUD's Homeless Categories	Does not need to serve HUD's Homeless Categories	Does not need to serve HUD's Homeless Categories
<b>Data Access</b>	Ability to Enter New Client Profiles and Edit Existing Information	Ability to Enter New Client Profiles and Edit Existing Information	Ability to Enter New Client Profiles and Edit Existing Information	View Only; Data View is Limited
<b>Organizational Criteria</b>	<ul style="list-style-type: none"> <li>• <b>Mission:</b> Serve persons experiencing homelessness or at risk of homelessness is identified as an organizational priority.</li> <li>• <b>Services:</b> Housing, Supportive Services, Shelter, Healthcare, Access to Services through Coordinated Entry</li> </ul>			

4100 E. Piedras Drive, San Antonio, Texas 78228

- **Service Delivery:** Provide services or support for persons experiencing homelessness with the intent to improve continuity of care. Category C and D projects must be co-located with homeless services provider.
- **Status:** Non-profit 501(c)(3), government entity, or healthcare provider
- **Email:** Users must have an organizational email
- **Security/Privacy:** Organization must designate a security officer to protect client data
- **Data Quality:** All except Category D must identify at least one individual that will respond to data quality reports sent monthly by the HMIS team.

\* HUD's priority project types are: Prevention, Street Outreach, Shelter (Emergency Shelter and/or Transitional Housing, and Housing (Rapid Re-Housing, Voucher Programs, Permanent Supportive Housing)

\*\* HUD's four categories of homelessness are: (1) Literally Homeless (2) Imminent Risk of Homelessness (3) Homeless Under other Federal Statute (4) Fleeing/attempting to flee domestic violence

## DATA ENTRY EXPECTATIONS

### UNIVERSAL DATA ELEMENTS (UDES)

The UDEs are baseline data collection elements required for **all** projects entering data into the HMIS. HMIS categories A, B, and C are required to input the following UDEs:

- |                          |                                   |
|--------------------------|-----------------------------------|
| → Name                   | → Universal Project Stay Elements |
| → Social Security Number | (One or More Values per Client    |
| → Date of Birth          | or Household Project Stay)        |
| → Race                   | → Disabling Condition             |
| → Ethnicity              | → Project Start Date              |
| → Gender                 | → Project Exit Date               |
| → Veteran Status         | → Exit Destination                |

4100 E. Piedras Drive, San Antonio, Texas 78228

- Relationship to Head of Household
- Client Location

- Housing Move-In Date
- Prior Living Situation

### **PROGRAM SPECIFIC DATA ELEMENTS (PDES)**

Program Specific Data Elements (PDEs) differ from the Universal Data Elements (UDEs) in that no one project must collect every single element in this section. Required data elements are dictated by the reporting requirements set forth by each Federal partner for the projects they fund. A Partner may require all or a selection of the fields or response categories. Data Quality Thresholds are included in Appendix C of the Data Quality Plan outlining required data elements and thresholds for each Federal partner. Category A and B projects are required to collect PDEs. HMIS PDEs include:

- Income and Sources
- Non-Cash Benefits
- Health Insurance
- Physical Disability
- Developmental Disability
- Chronic Health Condition
- HIV/AIDS
- Mental Health
- Substance Abuse
- Domestic Violence
- Current living situation
- Date of Engagement
- Coordinated Entry Assessment
- Coordinated Entry Event
- Bed-night Date

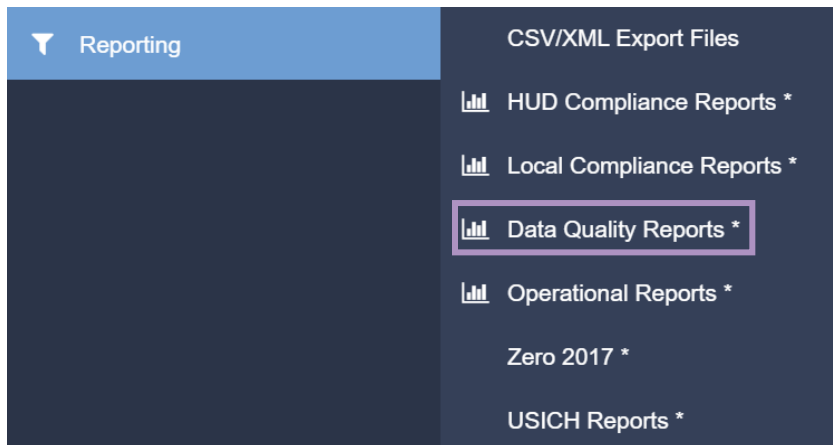

4100 E. Piedras Drive, San Antonio, Texas 78228

## BENCHMARKS AND GOALS

### TIMELINESS

Timeliness refers to necessary client information being entered into HMIS within a reasonable period of time. When data is entered in a timely manner, it can reduce human error due to too much time between data collection and data entry. Relying on notes or memory of a conversation can lead to incorrect or incomplete data entry. Timely data entry also makes information more accessible for the entire CoC. There is a Timeliness Report that agencies can use under “Data Quality Reports” in the HMIS Administration section to monitor the timeliness of data entry for entry into a project and exit from a project.

Continuum of Care

Timeliness is measured by comparing the enrollment member begin/end date to the assessment entry/exit created date. Timeliness cannot be edited, only improved going forward. Assessment information dates should match the date the client interview occurred. Each type of project has different expectations on timely data entry.

#### Data entry timeframe by project type:

- **Emergency Shelter:** Universal Data Elements and Housing Project Entry/Project Exit must be entered within **4** calendar days.

4100 E. Piedras Drive, San Antonio, Texas 78228

- **Transitional Housing:** Universal Data, Program-Specific Data, and Housing Check- In/Check-Out must be entered within **4** calendar days.
- **Permanent Housing:** Universal Data, Program-Specific Data, and Housing Check- In/Check-Out must be entered within **4** calendar days.
- **Rapid Re-Housing:** Universal and Program-Specific Data Elements must be entered within **4** calendar days.
- **Prevention projects:** Universal and Program-Specific Data Elements must be entered within **4** calendar days.
- **Supportive Services Only (including SSVF and safe sleeping) projects:** Universal and Program-Specific Data Elements must be entered within **4** business days.
- **Outreach Projects:** Limited data elements must be entered within **4** calendar days of the first outreach encounter. Universal Data Elements should be collected upon engagement in services.

---

#### HOUSING MOVE-IN DATE

The housing move-in date captures the move-in date at an “Occurrence Point.” This was added as a one-time field to capture this date at the time of move-in. This means that the move-in date must be entered if/when a household moves into any type of permanent housing, regardless of funding source or whether the project is providing the rental assistance. The move-in date must be between the Project Start Date and Project Exit Date and may be the same date as Project Start if the client moves into housing on the date they were accepted into the program.

---

#### ANNUAL ASSESSMENT DATE

Annual assessments that are required for collection must be entered and completed with created date of no more than 30 days before or after the anniversary of the head of household’s Project Start Date. Information must be accurate as of the created date and must be completed. The annual assessment must include updating both the head of household’s information and any other family member associated with the enrollment at the same time.

The data included in these updates impact the CoC’s System Performance Measures which contribute to HUD’s scoring process to determine local funding levels. As such, organizations in the A Category are required to conduct these assessments and those in the B Category are strongly encouraged to do so as well.

4100 E. Piedras Drive, San Antonio, Texas 78228

## COMPLETENESS

Completeness refers to entry of all clients served by an organization's project, as well as all necessary data elements.

Complete data is the key to assisting clients in finding the right services and benefits to end their homelessness. Incomplete data may hinder an organization's ability to provide comprehensive care to the clients it serves. Incomplete data can also negatively impact SARAH's ability to make generalizations of the population it serves, track patterns in client information and changes within the homeless population, and adapt strategies appropriately. HMIS data quality is also part of funding applications, including CoC and ESG funding. Low HMIS data quality scores may impact, and could result in denial of future funding requests.

SARAH's goal is to collect 100% of all universal data elements. Therefore, the HMIS Advisory Committee, with the CoC Board's approval, has established Data Quality Thresholds (see Table 1 through 7, Appendix C). The Data Quality Thresholds set an acceptable range of "null/not collected", and "client doesn't know/client refused" responses, depending on the data element. To determine compliance, percentages will be rounded (example: .04% becomes 0%).

All programs using the HMIS shall enter data on one hundred percent (100%) of the clients they serve. It is important to note that this includes all required elements and assessments for each member of a household. These standards will be reviewed and revised annually to make sure the thresholds are reasonable.

---

## BED/UNIT UTILIZATION RATES

One of the primary features of an HMIS is the ability to record the number of client stays or bed nights at a homeless residential facility. Case managers or shelter staff enter a client into the HMIS and assign them to a bed and/or a unit. The client remains there until he or she exits the program. When the client exits the project, they are also exited from the bed or unit in the HMIS. All shelters and housing units funded by the CoC must use the bed check-in software in HMIS. Bed/unit utilization will be determined based on bed check-ins and by project enrollment dates.

4100 E. Piedras Drive, San Antonio, Texas 78228

A bed night record has indicated that the client has utilized a bed in a shelter on that date. “There must be a record of a bed night on the Project Start Date into a night-by-night shelter; any additional bed night dates must be after the Project Start Date and before the Project Exit Date.” (HMIS Data Standards Manual, 2020)

#### **Acceptable range of bed/unit utilization rates for established projects:**

- Emergency Shelters: 65%-105%
- Transitional Housing: 65%-105%
- Permanent Supportive Housing: 65%-105%

The CoC recognizes that new projects may require time to reach the projected occupancy numbers and will not expect them to meet the utilization rate requirement during the first six months of operating.

### **ACCURACY**

Accuracy refers to reflecting true client information and ensuring necessary data elements are consistently recorded.

The best way to measure accuracy of client data is to compare the HMIS information with more accurate sources, such as a social security card, birth certificate, or driver’s license. To ensure the most up-to-date and complete data, data entry errors should be corrected on a monthly basis.

As a general rule, it is a better practice to select “client doesn’t know/refused” than to misrepresent the population. Do not enter invalid data (such as “111-11-1111”, or “123-45-6789” for SSN) to render data completeness as this will not be counted.

---

### **DATA CONSISTENCY**

Consistent data collection helps promote accuracy. All data in HMIS should be collected and entered in a common and consistent manner across all programs. To that end, all intake and data entry workers will complete an initial training before accessing the live HMIS system, and access additional training opportunities offered by the HMIS Lead.

The HMIS staff may check data accuracy and consistency by running reports that check for entry errors such as duplicate files created, overlapping enrollments or inconsistent assessment responses. The HMIS team

4100 E. Piedras Drive, San Antonio, Texas 78228

also reserves the right to provide HMIS client identification numbers to the CoC for their program auditing or monitoring purposes.

All users are recommended to use the HMIS training environment to practice data entry or test any functionality. The training environment does not affect the live database and does not save any data that is inputted. The link to the training environment is as follows:

[https://hmis.havenforhope.org/HavenForHope\\_training.ecm](https://hmis.havenforhope.org/HavenForHope_training.ecm)

## DATA QUALITY MONITORING PLAN

### ROLES AND RESPONSIBILITIES

For a detailed outline of the roles and responsibilities of SARAH, the CoC Board of Directors, HMIS Lead (Haven for Hope), and HMIS Advisory Committee see the “HMIS Governance Charter” available at [www.sarahomeless.org](http://www.sarahomeless.org).

### MONITORING WORKFLOWS

#### Category A Projects

##### 1. HMIS Data Quality Reports

HMIS Data Quality Analyst sends monthly Data Quality Reports to project’s point of contact by the 5<sup>th</sup> of the month. Project’s point of contact must acknowledge receipt by the 10<sup>th</sup>. Data corrections must be made by the 15<sup>th</sup> and reported to HMIS.

##### 2. HMIS Reminder

If no response by the 15<sup>th</sup> of the month, an email reminder sent will be sent on the following business day. Project staff have 3 additional business days after this reminder to make corrections.

##### 3. SARAH Involvement

If still no response after 3 days, SARAH's Data Coordinator is notified at next HMIS Operations Meeting, which occurs every Wednesday. SARAH's Planning Manager will reach out to the project point of contact. The HMIS team is notified when this outreach takes place. If still no response, the information is referred to the Planning Manager’s supervisor.

##### 4. Leadership Involvement

4100 E. Piedras Drive, San Antonio, Texas 78228

If there is still no response, SARAH's Executive Director will reach out to the project agency's CEO/ED to evaluate CoC Contract.

#### Category B & C Projects

##### 1. HMIS Data Quality Reports

HMIS Data Quality Analyst sends monthly Data Quality Reports to project's point of contact by the 5<sup>th</sup> of the month. Project's point of contact must acknowledge receipt by the 10<sup>th</sup>. Data corrections must be made by the 15<sup>th</sup> and reported to HMIS.

##### 2. HMIS Reminder

If no response by the 15<sup>th</sup> of the month, an email reminder sent will be sent on the following business day. Project staff have 3 additional business days after this reminder to make corrections.

##### 3. SARAH Involvement

If still no response after 3 days, SARAH's Data Coordinator is notified at next HMIS Operations Meeting, which occurs every Wednesday. SARAH's Planning Manager will reach out to the project point of contact. The HMIS team is notified when this outreach takes place. If still no response, the information is referred to the Planning Manager's supervisor.

##### 4. Leadership Involvement

If there is still no response, SARAH's Executive Director will reach out to the project agency's CEO/ED to evaluate CoC Contract.

##### 5. HMIS Advisory

As Category B and C agencies do not have CoC contracts, the decision at this point is whether the project should still be allowed HMIS access. This decision will be made by the HMIS Advisory Committee.

4100 E. Piedras Drive, San Antonio, Texas 78228

## APPENDICES

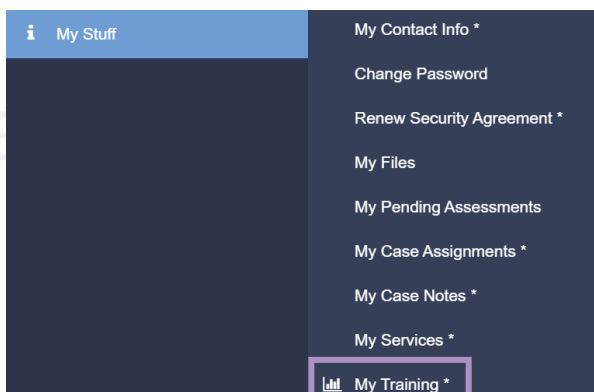

### APPENDIX A: SUGGESTIONS FOR ACCURACY

→ Attend regular trainings sponsored by the Haven for Hope HMIS team.

- ✓ You may request training online through the virtual helpdesk at [HMIS.support@havenforhope.org](mailto:HMIS.support@havenforhope.org). See types of trainings below in the “HMIS Lead Agency” section of this plan.

→ Read through the training guide posted online as needed.

- ✓ An up-to-date training guide is available in HMIS under the “My Stuff” tab (see screenshot below). This guide covers most sections within HMIS and can be a helpful tool to ensure data is entered accurately.

→ Maintain a personal Data Quality Log

- ✓ As you find data quality issues, keep a log of information. Issues might include duplicate files or incorrect demographic information. If you are not sure how to correct a data entry mistake, **please submit a service request online**. The virtual helpdesk can be accessed at [HMIS.support@havenforhope.org](mailto:HMIS.support@havenforhope.org).

→ Maintain uniform data collection techniques. Some examples include:

- ✓ No numerals in name fields (except Suffix)

4100 E. Piedras Drive, San Antonio, Texas 78228

- ✓ Use age only if date of birth is unknown. Spot-check data entered monthly and compare to paper documents.
- ✓ If a copy of an official document is obtained, compare those with the responses within HMIS to perform data quality checks on intake staff.
- ✓ Only restrict client information if the client refuses to share information in HMIS. Please do not restrict all client profiles as this creates an influx of duplicate records.
- ✓ Have a document explaining your individual intake forms.
- ✓ Have a document available to all intake/data entry staff that includes explanations on all questions covered on intake forms. HUD offers examples on the HUD Exchange.
- ✓ Work with intake specialists on interviewing techniques and wording of questions.
- ✓ Regular training of intake staff to improve on interviewing techniques and wording of questions can assist in increasing consistency of data quality.

→ Review HUD's HMIS Data Standards.

- ✓ Version 1.5 of the 2020 HMIS Data Standards, Released October 2019 are available online at [www.hudexchange.info](http://www.hudexchange.info). This resource includes information on required data elements, when they should be captured (at entry or exit), and which types of programs are responsible for capturing them. Make sure your programs are meeting HUD's baseline compliance requirements.

→ Ensure agency data is only updated for your organization's projects and enrollments.

- ✓ It is imperative that end users refrain from entering and altering existing data on enrollments or projects from other organizations. Only update or complete data entry corrections on your assigned HMIS project and enrollment.

4100 E. Piedras Drive, San Antonio, Texas 78228

4100 E. Piedras Drive, San Antonio, Texas 78228

## APPENDIX C: CLARIFYING DEFINITIONS

The following definitions come from the September 2020 HMIS Data Standards Manual

- **Veteran Status:** Anyone who has ever been on active duty in the armed forces of the United States, regardless of discharge status or length of service. Army, Navy, Air Force, Marine Corps, and Coast Guard: active duty begins when a military member reports to a duty station after completion of training. Reserves and National Guard: active duty is any time spent activated or deployed, either in the United States or abroad. Or Anyone who was disabled in the line of duty during a period of active duty training. Or Anyone who was disabled from an injury incurred in the line of duty or from acute myocardial infarction, a cardiac arrest, or a cerebrovascular accident during a period of inactive duty training.. Please see further details as outlined in the HMIS Data Standards Manual.
- **Disabling Condition:** A physical, mental, or emotional impairment, including an impairment caused by alcohol or drug abuse, post-traumatic stress disorder, or brain injury. Please see further details as outlined in the HMIS Data Standards Manual.

4100 E. Piedras Drive, San Antonio, Texas 78228

## APPENDIX D: DATA COLLECTION INSTRUCTIONS

- **Veteran Status:** An HMIS should only have one record of Veteran Status for each client, no matter how many enrollments they have. When enrolling a client who already has a record in the HMIS, verify that the veteran status recorded is accurate and correct it if it is not.
- **Disabling Condition:** There should be one and only one value for Disabling Condition for each project stay. If the status changes over the course of the project stay, or the information was recorded incorrectly at the time of the project start, correct the record.

San Antonio / Bexar County Continuum of Care

4100 E. Piedras Drive, San Antonio, Texas 78228

## **APPENDIX E: DEFINING HOMELESSNESS**

The below categories were obtained from the HUD Exchange resources and documents  
HomelessDefinition\_RecordkeepingrequirementsandCriteria.pdf

---

### **CATEGORY 1 – LITERALLY HOMELESS**

1. Individual or family who lacks a fixed, regular, and adequate nighttime residence, meaning:
  - i. Has a primary nighttime residence that is a public or private place not meant for human habitation;
  - ii. Is living in a publicly or privately operated shelter designated to provide temporary living arrangements (including congregate shelters, transitional housing, and hotels and motels paid for by charitable organizations or by federal, state and local government programs); or
  - iii. Is exiting an institution where (s)he has resided for 90 days or less and who resided in an emergency shelter or place not meant for habitation immediately before entering that institution

---

### **CATEGORY 2 – IMMINENT RISK OF HOMELESSNESS**

2. Individual or family who will imminently lose their primary nighttime residence, provided that:
  - i. Residence will be lost within 14 days of the date of application for homeless assistance;
  - ii. No subsequent residence has been identified; and
  - iii. The individual or family lacks the resource or support networks needed to obtain other permanent housing

---

### **CATEGORY 3 – HOMELESS UNDER OTHER FEDERAL STATUTES**

3. Unaccompanied youth under 25 years of age, or families with children and youth, who do not otherwise qualify as homeless under this definition, but who:

4100 E. Piedras Drive, San Antonio, Texas 78228

- i. Are Defined as homeless under the other listed federal statutes;
- ii. Have not had a lease, ownership interest, or occupancy agreement in permanent housing during the 60 days prior to the homeless assistance application;
- iii. Have experienced persistent instability as measured by two moves or more during in the preceding 60 days; and
- iv. Can be expected to continue in such status for an extended period of time due to special needs or barriers

---

#### CATEGORY 4 – FLEEING/ATTEMPTING TO FLEE DV

##### 4. Any individual or family who:

- i. Is fleeing; or is attempting to flee, domestic violence;
- ii. Has no other residence; and
- iii. Lacks the resources or support networks to obtain other permanent housing

---

#### CHRONIC HOMELESSNESS

Chronic Homelessness is defined as some who has experience homelessness for a year or longer, or who has experienced at least four episodes of homeless in the last three years (must be cumulative of 12 months), and has a disability.

Remember: Occasions are separated by a break of a least seven nights. Stays in institutions of fewer than 90 days do not constitute a break. Breaks can be documented by self-report.

Below is a link of HUD's definition of Chronic Homelessness:

<https://www.havenforhope.org/downloads/HMIS/HUDs-Definition-of-Chronic-Homelessness.pdf>

4100 E. Piedras Drive, San Antonio, Texas 78228

## APPENDIX F: UNIVERSAL DATA QUALITY THRESHOLDS FY 2020

Project Type	Universal Thresholds										
	Requirements	ES, Day Shelters		TH, PSH, SH, OPH		Prev/RRH		Street Outreach		SSO/Other Homeless Assistance Provider	
Universal Data Element	All Clients, Adults, or HoH	Acceptable % Null/Not Collected	Acceptable % Client Doesn't Know/Refused	Acceptable % Null/Not Collected	Acceptable % Client Doesn't Know/Refused	Acceptable % Null/Not Collected	Acceptable % Client Doesn't Know/Refused	Acceptable % Null/Not Collected	Acceptable % Client Doesn't Know/Refused	Acceptable % Null/Not Collected	Acceptable % Client Doesn't Know/Refused
<b>Demographics</b>											
Name	All	0%	0%	0%	0%	0%	0%	1%	10%	0%	0%
Social Security Number	All	0%	2%	0%	1%	0%	2%	1%	10%	0%	3%
Date of Birth	All	0%	0%	0%	0%	0%	0%	1%	10%	0%	0%
Race	All	0%	2%	0%	1%	0%	2%	1%	5%	0%	3%
