

SPM DATA REVIEWS

QUICK FACT OVERVIEW

Data Quality Analysts

Jenni Hernandez • Jenni.Hernandez@havenforhope.org

Rohan Samuel • Rohan.Samuel@havenforhope.org

WHAT

HMIS sends portions of drilldown data sets generated from the System Performance Measures (SPM) to the agency to verify the information in the HMIS database matches agency records. HMIS sends flagged records for measures that are most affected by data entry on a project level.

PURPOSE

The SPM is intended to "help communities gauge their progress in preventing and ending homelessness and provide a more complete picture of how well a community is achieving this goal"¹. The purpose of this review is to ensure the data is reporting our community's progress accurately.

WHO

REPORTS ARE SENT TO THE
AGENCY HMIS REPRESENTATIVES

ALL CONTACTS ARE CC'ED FOR
PROJECTS INCLUDED IN
REPORTS

REVIEW DATA SETS

Use table included in email to verify elements for accuracy. Compare your records to the information in HMIS. If information is accurate no action is needed. If information is inaccurate, make appropriate edit to information in HMIS.

WHEN

Reports are sent on a quarterly basis on the 15th of the month. 2021 schedule:

AGENCY TASKS

Coordinate review of data sets within agency. If any questions occur reach out to HMIS Data Quality Analysts or submit a ticket to hmis.support@havenforhope.org. Once review is complete a response may be sent to HMIS, but is not required.
